WOODY VEGETATION OF THE SERENGETI NATIONAL PARK, TANZANIA

MAPPING UNITS VEGETATION TYPES

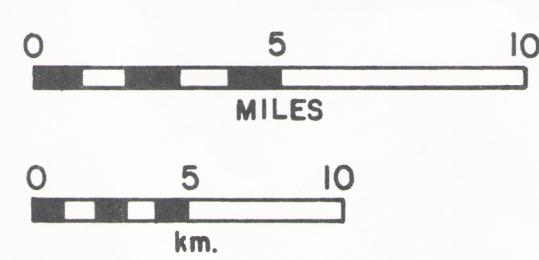

- Grassland
- Upland Evergreen Forest
- Evergreen to Semi-Deciduous Bushland
- Inselberg vegetation

SPECIES TYPES

- Balanites aegyptiaca*
- Combretum molle* / *Terminalia mollis*
- Acacia mellifera*
- Acacia senegal*
- Acacia drepanolobium*
- Acacia hockii*
- Acacia sieberiana*
- Acacia gerrardii*
- Acacia senegal* / *Acacia hockii*
- Acacia tortilis*
- Acacia xanthophloea*
- Acacia seyal*
- Acacia clavigera*
- Commiphora trochae*
- Acacia nilotica*
- Undifferentiated woodlands on rocky hills
- Lonchocarpus eriocalyx*
- Albizia harveyi* / *Acacia clavigera* / *Acacia polyacantha*

For those mapping units color coded for species dominance, examples are given below.

- Type dominated by one species - *Acacia tortilis*
- Type dominated by two species - *Acacia nilotica* / *Acacia gerrardii*
- Type dominated by three species - *Acacia senegal* / *Acacia clavigera* / *Commiphora trochae*
